

Jr. High Language Arts Curriculum

The Language Arts program integrates the skills of reading, listening, and writing. Through this approach, students acquire a sense of the wholeness of English. Students receive instructions in grammar, usage and mechanics. There is active participation in whole class lessons, small group activities, and one on one conversation with the teacher. A variety of opportunities to develop and master oral and written communication skills are provided through brief oral presentations, the composition of complete sentences, and the writing of well-organized paragraphs.
